Subject: RE: Wastewater Treatment System at 2800 S Pope Lick Rd

Our office determined that a traditional sewage disposal system was not feasible for this proposed project... However, the applicant plans to get a permit for a sewage treatment system approved by the Kentucky Division of Water (we have no control over this type of system being approved and eventually installed)... not sure if they submitted to State yet... Is this in the Floyds Fork Corridor...

Subject: Wastewater Treatment System at 2800 S Pope Lick Rd

Hi Mike,

This request has come back up and the applicant is deciding to move forward with the variance request. The request is scheduled to be heard by the Board of Zoning Adjustment at a public hearing on Monday, July 15th. I am completing my review of the request and trying to get some additional input and confirmation about the Health Department's stance on what this applicant is proposing. I have attached a site plan that shows the precise location of the proposed on-site sewage disposal system. It appears that they will have a pipe discharging the treated effluent directly into Pope Lick Creek.

I was wondering if you can please review this site plan and verify whether or not the Health Department finds this proposal acceptable. If you have any comments or recommended changes, please let me know. Or if you find this proposal acceptable, a preliminary approval of what is being proposed would be appreciated.

Please let me know if you have any questions or need any additional information. Thank you!

Jeremy Chesler

SITE EVALUATION REQUIREMENTS

Submit completed 'Application for Site Evaluation' with:

- 1) \$375.00 fee. Cash, check or credit card accepted. Make check payable to 'Louisville Metro Government'.
- 2) Detailed construction plans.
- 3) If the site is less than 5 acres, you must provide:
 - a) Copy of the recorded deed; and
 - b) Signed copy of the most recent recorded plat, if such exist.
- 4) Copy of plot plan or survey including:
 - a) Size and dimension of lot;
 - b) Approximate location of house, driveway, garage and any out buildings;
 - c) Location of existing septic system; and
 - d) If public water is not available, show location of cistern.

BACKHOE PITS ARE REQUIRED

Sites need to be mowed, but NOT cleared.

Property lines need to be clearly marked.

Applicant provides backhoe for site evaluation.

The location designated for the septic system must be protected from disturbance.

We strongly recommend that you use a certified installer. They will schedule the site evaluation with our office. Appointments can be scheduled within two to three days under normal weather conditions.

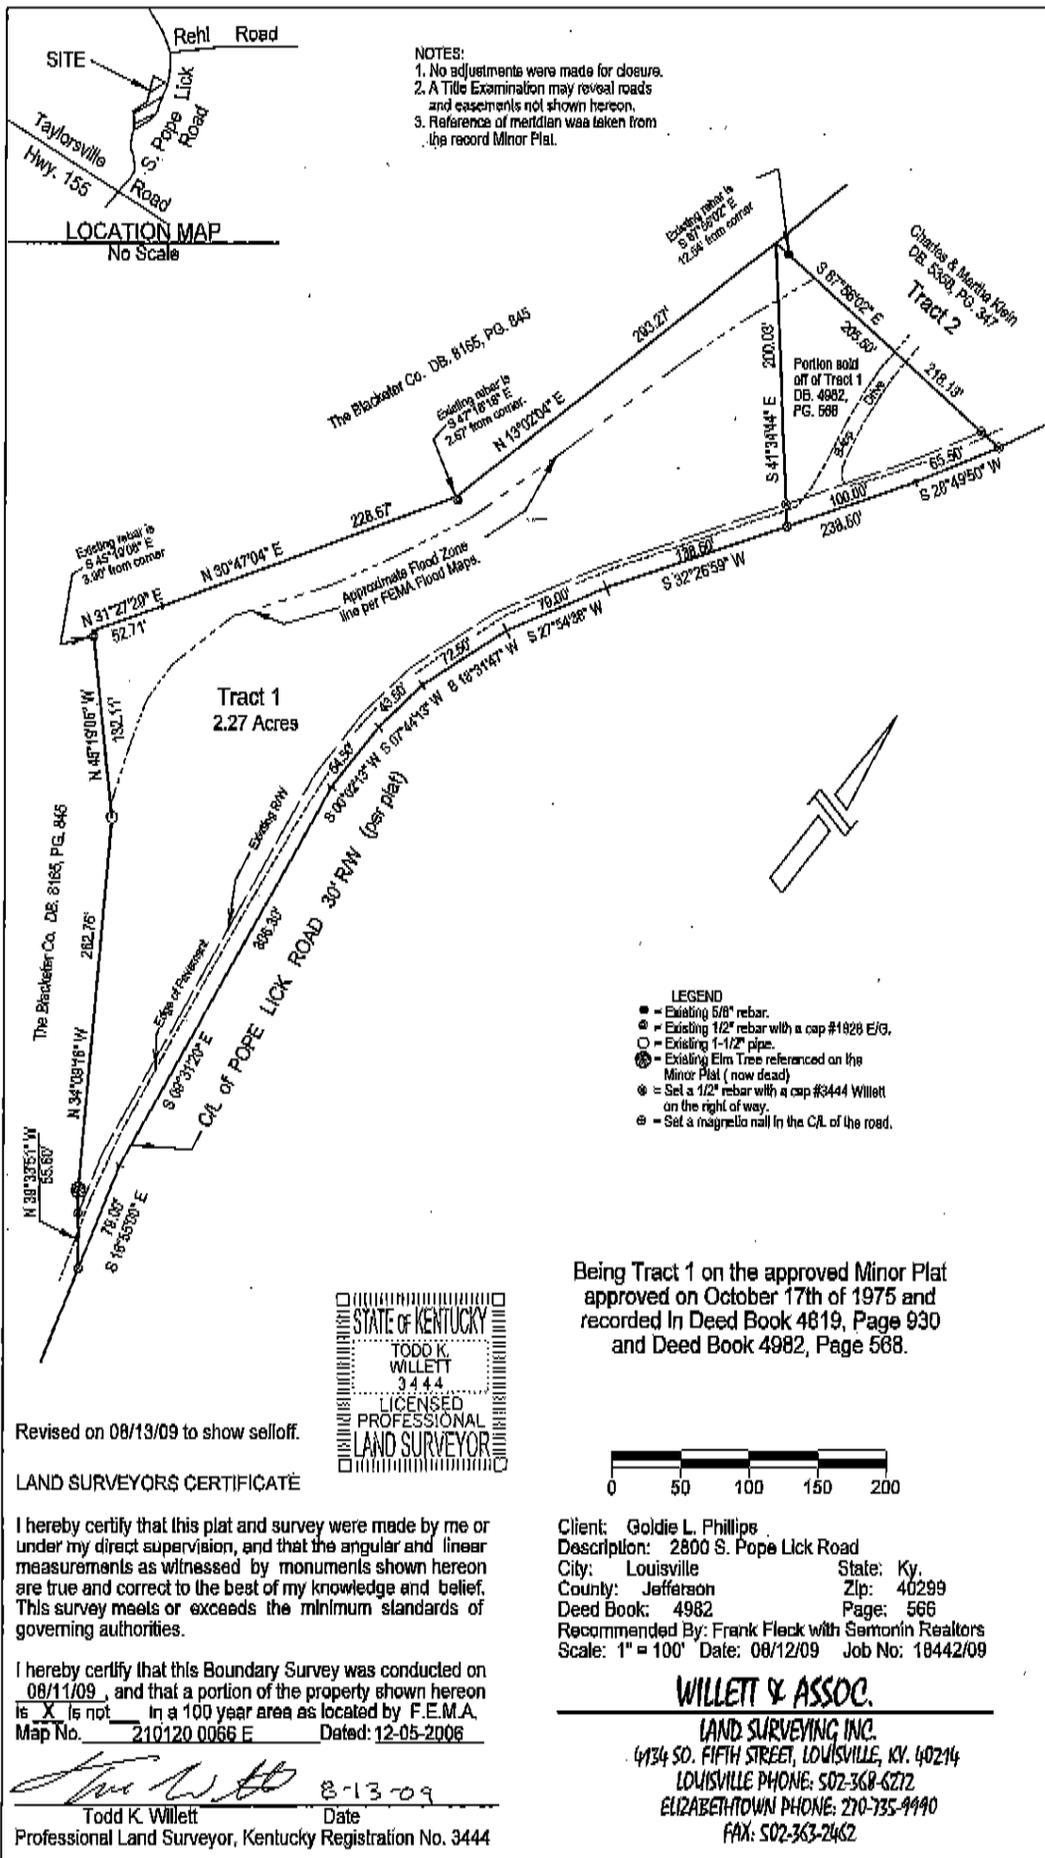

ONSITE SEWAGE DISPOSAL SYSTEM CONSTRUCTION APPLICATION & PERMIT

A certified installer must obtain the 'Onsite Sewage Disposal System Construction Permit'. The permit fee is \$425 and is valid for one (1) year from date of issue. The homeowner may request an extension, if the need arises. If a permit should expire, a new application and permit fee will be required. Please note that this permit is non-transferable.

BUILDING PLANS

Once you obtain an approved 'Onsite Sewage Disposal System Construction Permit' and pay the \$25 plan review fee, the building plans can be stamped by our office. Plans must be submitted via the 'Online Permitting Portal'.

Contact this office at 574-6655 should you have any questions.

NOTES:
 1. No adjustments were made for closure.
 2. A Title Examination may reveal roads and easements not shown hereon.
 3. Reference of meridian was taken from the record Minor Plat.
