

Planning Commission

Staff Report

September 21, 2023

Case No:	23-ZONE-0075
Project Name:	Dance Designs
Location:	7603 River Road
Owner(s):	Charles & Carol Hebel
Applicant:	Dance Designs
Jurisdiction:	Louisville Metro
Council District:	16 – Scott Reed
Case Manager:	Dante St. Germain, AICP, Planner II

REQUESTS

- **Change in zoning** from R-4 Single Family Residential C-1 Commercial
- **Waivers:**
 - #1: from 5.5.1.A.3.d to omit a required vehicular connection between abutting non-residential developments
 - #2: from 5.5.1.A.1 to permit the principal entrance to face a direction other than toward the primary street serving the development
 - #3: from Table 10.2.3 to permit encroachment into the required property perimeter Landscape Buffer Area (LBA)
- **Detailed District Development Plan** with Binding Elements

CASE SUMMARY/BACKGROUND

The subject site is located along River Road near the intersection with Beech Avenue and consists of one undeveloped parcel. The applicant proposes to rezone the property in order to construct a new 3500 square foot commercial structure to be used as a dance instruction studio.

Commercial development is located adjacent to the site to the east. A non-residential use in residential zoning is located to the west. Residential and institutional uses are located to the north and south of the site.

STAFF FINDING

Staff finds that the proposed zoning change meets the guidelines of the Comprehensive Plan. The waivers are adequately justified and meet the standard of review. The site plan meets the requirements of the Land Development Code with the exception of the requested waivers, and meets the guidelines of the Comprehensive Plan.

TECHNICAL REVIEW

Plan 2040

Land Development Code (Louisville Metro)

MSD and Transportation Planning have provided preliminary approval of the proposal.

INTERESTED PARTY COMMENTS

No interested party comments have been received by staff.

STANDARD OF REVIEW FOR REZONING

Criteria for granting the proposed form district change/rezoning: KRS Chapter 100.213

1. The proposed form district/rezoning change complies with the applicable guidelines and policies Plan 2040; OR
2. The existing form district/zoning classification is inappropriate and the proposed classification is appropriate; OR
3. There have been major changes of an economic, physical, or social nature within the area involved which were not anticipated in Plan 2040 which have substantially altered the basic character of the area.

STAFF ANALYSIS FOR CHANGE IN ZONING

The site is located in the Village Form District

Village Form is characterized by predominately residential uses where the pattern of development is distinguished by open space such as parks, greenways, and farmland protected by conservation easements. The Village Form should have a small-scale village center with a mixture of uses such as offices, shops, restaurants, services and a diversity of housing types that may be higher in density than the rest of the district. The village center may be arranged around a village green. Low-density residential uses interspersed with open space may be encouraged at the edge of the Village. Village Form should be designed to encourage pedestrian, bicycle and transit use.

Following is staff's analysis of the proposed rezoning against the Goals, Objectives and Policies of Plan 2040.

The requested C-1 zoning would permit neighborhood-serving commercial uses adjacent to an existing commercial activity center to the east. The commercial center is zoned C-2. The proposal on the subject site would permit a step-down in intensity from that center to the residential uses located to the south, north and west of the site.

The proposed zoning district is generally in compliance with the plan elements and CHASE principles of Plan 2040. All other agency comments should be addressed to demonstrate compliance with the remaining Goals, Objectives and Policies of Plan 2040.

A checklist is attached to the end of this staff report with a more detailed analysis. The Louisville Metro Planning Commission is charged with making a recommendation to the Louisville Metro Council regarding the appropriateness of this zoning map amendment. The Louisville Metro Council has zoning authority over the property in question.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR WAIVER OF SECTION 5.5.1.A.3.d

- (a) The waiver will not adversely affect adjacent property owners; and

STAFF: The waiver will not adversely affect adjacent property owners as there is a line of trees between the site and the adjacent non-residential site, which is located on the adjacent site and would prohibit connectivity. Both sites have adequate access to River Road.

- (b) The waiver will not violate specific guidelines of Plan 2040; and

STAFF: The waiver will not violate specific guidelines of Plan 2040 as Plan 2040 encourages appropriate connectivity in order to reduce trips and vehicle miles traveled. A connection between the adjacent properties would be unlikely to reduce trips, as the proposed use on the site sees parents dropping off their children for dance lessons and then driving away for the remainder of the lesson.

- (c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant; and

STAFF: The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant as the tree line already exists. Additionally, providing the required connectivity would make development of the site infeasible.

- (d) Either:

(i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect); OR

(ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: Strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant because provision of the required connectivity would make development of the site infeasible.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR WAIVER OF SECTION 5.5.1.A.1

- (a) The waiver will not adversely affect adjacent property owners; and

STAFF: The waiver will not adversely affect adjacent property owners as the side of the structure that faces the street is adequately articulated.

- (b) The waiver will not violate specific guidelines of Plan 2040; and

STAFF: The waiver will not violate specific guidelines of Plan 2040 as Plan 2040 does not address building façades.

- (c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant; and

STAFF: The extent of the waiver of the regulation is not the minimum necessary to afford relief to the applicant as another entrance into the structure could be provided along the River Road elevation.

- (d) Either:

(i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect); OR

(ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived because the elevation facing River Road is sufficiently articulated to appear to be the front of the building.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR WAIVER OF TABLE 10.2.3

- (a) The waiver will not adversely affect adjacent property owners; and

STAFF: The waiver will not adversely affect adjacent property owners as the most affected structure is in non-residential use.

- (b) The waiver will not violate specific guidelines of Plan 2040; and

STAFF: The waiver will not violate specific guidelines of Plan 2040 as Plan 2040 encourages appropriate buffering and transitions between uses that are significantly different in density or intensity. The proposed use is neighborhood-serving and unlikely to cause significant impacts on the neighbors.

- (c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant; and

STAFF: The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant as the lot is relatively narrow and parking is required to be in the rear. Providing the full required buffer would make development of the lot infeasible.

- (d) Either:

(i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect); OR

(ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: Strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant because the lot would be unusable if the full LBA were provided.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR DDDP

- (a) The conservation of natural resources on the property proposed for development, including: trees and other living vegetation, steep slopes, water courses, flood plains, soils, air quality, scenic views, and historic sites;

STAFF: No natural resources exist on the site currently except for light tree canopy. The trees in the rear will be preserved. Required street trees will be provided.

- (b) The provisions for safe and efficient vehicular and pedestrian transportation both within the development and the community;

STAFF: Provisions for safe and efficient vehicular and pedestrian transportation within and around the development and the community has been provided, and Metro Public Works has approved the preliminary development plan.

- (c) The provision of sufficient open space (scenic and recreational) to meet the needs of the proposed development;

STAFF: No open space requirements are pertinent to the request.

- (d) The provision of adequate drainage facilities on the subject site in order to prevent drainage problems from occurring on the subject site or within the community;

STAFF: The Metropolitan Sewer District has approved the preliminary development plan and will ensure the provision of adequate drainage facilities on the subject site in order to prevent drainage problems from occurring on the subject site or within the community.

- (e) The compatibility of the overall site design (location of buildings, parking lots, screening, landscaping) and land use or uses with the existing and projected future development of the area;

STAFF: The overall site design is in compliance with existing and planned future development in the area. The proposal would provide commercial development adjacent to existing commercial development.

- (f) Conformance of the development plan with the Comprehensive Plan and Land Development Code. Revised plan certain development plans shall be evaluated for conformance with the non-residential and mixed-use intent of the form districts and comprehensive plan.

STAFF: The development plan conforms to applicable requirements of the Land Development Code and Plan 2040 with the exception of the requested waivers. The site plan complies with the policies and guidelines of the Comprehensive Plan.

REQUIRED ACTIONS

- **RECOMMEND** that Metro Council **APPROVE** or **DENY** the **Change-in-Zoning** from R-4 to C-1
- **APPROVE** or **DENY** the **Waivers**
- **APPROVE** or **DENY** the **Detailed District Development Plan** with **Binding Elements**

Village: Non-Residential

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
1	Community Form: Goal 1	6. Discourage non-residential expansion into existing residential areas unless applicant can demonstrate that any adverse impact on residential uses will be mitigated. Evaluation of impacts may include, but not be limited to, displacement of residents, loss of affordable housing units, traffic, parking, signs, lighting, noise, odor, and stormwater. Appropriate transitions from non-residential to residential uses should depend on the pattern of development of the Form District and may include natural vegetative buffers, landscaping or the use of higher density residential between lower density residential and/or non-residential.	✓	The site is located along immediately adjacent to a commercial development which is zoned C-2. The proposed C-1 zoning would represent a step down in intensity from the C-2 district to the residential development to the west.
2	Community Form: Goal 1	7. Locate higher density and intensity uses near major transportation facilities and transit corridors, employment centers, in or near activity centers and other areas where demand and adequate infrastructure exists or is planned.	✓	The site is located adjacent to an existing commercial development and is on River Road, a minor arterial at this location.
3	Community Form: Goal 1	8. Encourage industries to locate in workplace Form Districts or in areas readily served by infrastructure and transportation facilities, including transit, rather than isolated industrial sites.	NA	The proposal is not for industrial zoning.
4	Community Form: Goal 1	15. When reviewing proposals for siting hazardous uses and uses with air, noise and light emissions, ensure disadvantaged populations are not disproportionately impacted.	✓	The proposed zoning district would not permit hazardous uses. Uses with air, noise and light emissions must comply with LMCO and LDC restrictions.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
5	Community Form: Goal 1	16. Consider impacts on human health, quality of life and the environment including prevailing meteorological conditions and the potential to transport noxious odors, particulates and emissions when reviewing new developments and redevelopments. Special attention should be paid to air and water quality when residences, schools, parks or vulnerable populations will be impacted. Mitigate impacts to areas that are disproportionately affected.	✓	The proposed zoning district would not permit noxious odors, particulates or emissions.
6	Community Form: Goal 1	17. Mitigate adverse impacts of traffic from proposed development on nearby existing communities.	✓	Access to the site is via River Road, a minor at this location.
7	Community Form: Goal 1	18. Mitigate adverse impacts of noise from proposed development on existing communities.	✓	Adequate buffering will be provided to adjacent residential uses to mitigate any noise impacts.
8	Community Form: Goal 1	21. Require that industries which handle hazardous or flammable materials or are potentially offensive such as junkyards, landfills and quarries are sited to protect public health, safety and welfare and are located away from residential areas and population centers.	NA	The proposed zoning district would not permit uses handling hazardous or flammable materials, or uses similar to junkyards, landfills or quarries.
9	Community Form: Goal 2	1. Locate activity centers in appropriate areas in all Form Districts. Design and density should be compatible with desired form, adjacent uses, and existing and planned infrastructure.	✓	The site is located adjacent to an existing activity center.
10	Community Form: Goal 2	4. Allow non-residential development within the Neighborhood, Traditional Neighborhood and Village Form Districts to occur only at locations with appropriate access and connectivity.	✓	The site has appropriate access and connectivity.
11	Community Form: Goal 2	5. Locate retail commercial development in activity centers where it can be demonstrated that sufficient population exists or is anticipated to support it.	✓	The site is located along River Road, a minor arterial at this location, and adjacent to an existing activity center.
12	Community Form: Goal 2	6. Encourage a more compact development pattern in activity centers that result in efficient land use and cost-effective infrastructure investment.	✓	The proposed zoning district would permit a more compact pattern of development adjacent to an existing activity center.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
13	Community Form: Goal 2	7. Encourage activity centers to include a mixture of compatible land uses in order to reduce traffic congestion by requiring fewer trips, support and enhance alternative modes of travel, and encourage vitality and a sense of place.	✓	The proposed zoning district would permit a mixture of compatible land uses adjacent to an existing activity center.
14	Community Form: Goal 2	8. Encourage residential land uses in designated centers. Encourage residential and office uses above retail and other mixed-use multi-story retail buildings.	✓	The proposed zoning district would permit residential uses above retail.
15	Community Form: Goal 2	9. Encourage new developments and rehabilitation of buildings that provide commercial, office and/or residential uses.	✓	The proposal would provide new development providing commercial uses.
16	Community Form: Goal 2	10. Encourage outlot development in underutilized parking lots of existing development to promote utilization of existing infrastructure provided specific criteria for elements such as location, scale, signs, parking, lighting, and landscaping are met. Outlot development shall encourage street-level retail with residential units above.	✓	No underutilized parking lots are proposed.
17	Community Form: Goal 2	11. Ensure appropriate placement, design and scale of centers in Traditional Neighborhood, Neighborhood and Village Form Districts to ensure compatibility with nearby residences.	✓	The proposed zoning district would permit an appropriate design and scale of a center in the Village Center Form District.
18	Community Form: Goal 3	9. Encourage development that respects the natural features of the site through sensitive site design, avoids substantial changes to the topography, and minimizes property damage and environmental degradation resulting from disturbance of natural systems.	NA	No natural features are evident on the site.
19	Community Form: Goal 3	10. Encourage development to avoid wet or highly permeable soils, severe, steep or unstable slopes where the potential for severe erosion problems exists in order to prevent property damage and public costs associated with soil slippage and foundation failure and to minimize environmental degradation.	+/-	No wet or highly permeable soils, or severe, steep or unstable slopes are evident on the site.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
20	Community Form: Goal 3	11. Encourage land uses within the Ohio River Corridor that are appropriate for and related to river corridor activities and that are consistent with the goals and objectives of the Ohio River Corridor Master Plan. Reserve appropriate riverfront sites such as the Upper River Road industrial area for river-related development. Allow development of commercial leisure businesses related to the river, such as boating services and restaurants in appropriate locations. Encourage new development in the Ohio River corridor and along key greenway and street connections to provide for public access in new riverfront development and to maintain views of the river from public rights-of-way.	NA	The site is not located in the Ohio River Corridor.
21	Community Form: Goal 3	12. When reviewing proposed developments consider changes to flood-prone areas and other features vulnerable to natural disasters such as sinkholes and landslides. Ensure appropriate measures to protect health, safety and welfare of future users of the development.	NA	The site is not located in the floodplain.
22	Community Form: Goal 4	1. Preserve buildings, sites, districts and landscapes that are recognized as having historic or architectural value and ensure that new land uses are compatible in height, massing, scale, architecture style and placement when located within the impact area of such resources.	NA	No historic assets are evident on the site.
23	Community Form: Goal 4	2. Encourage preservation of distinctive cultural features including landscapes, natural elements and built features.	NA	No distinctive cultural features are evident on the site.
24	Mobility: Goal 1	4. Encourage higher densities and intensities within or near existing marketplace corridors, existing and future activity centers, and employment centers to support transit-oriented development and an efficient public transportation system.	✓	The site is located adjacent to an existing activity center.
25	Mobility: Goal 2	4. Avoid access to development through areas of significantly lower intensity or density development if such access would create significant nuisances.	✓	Access to the site is via River Road, a minor arterial at this location.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
26	Mobility: Goal 3	1. Encourage a mix of complementary neighborhood serving businesses and services in neighborhood and village centers to encourage short trips easily made by walking or bicycling.	✓	The proposal would permit a mix of complementary neighborhood-serving uses.
27	Mobility: Goal 3	2. To improve mobility, and reduce vehicle miles traveled and congestion, encourage a mixture of compatible land uses that are easily accessible by bicycle, car, transit, pedestrians and people with disabilities. Housing should be encouraged near employment centers.	✓	The site is easily accessible by bicycle and car. Access by transit may be improved by the proposal, as new transit routes are proposed where more density of residential and commercial is constructed. Access by pedestrians and people with disabilities will be improved by the proposal.
28	Mobility: Goal 3	3. Evaluate developments for their ability to promote public transit and pedestrian use. Encourage higher density mixed-use developments that reduce the need for multiple automobile trips as a means of achieving air quality standards and providing transportation and housing choices.	✓	The proposal would permit higher-density mixed-use developments that reduce the need for multiple automobile trips.
29	Mobility: Goal 3	4. Encourage development of walkable centers to connect different modes of travel. Siting of these multi-modal centers shall consider the effects of the following: 4.1. nodal connections identified by Move Louisville; 4.2. impact on freight routes; 4.3. time of operation of facilities; 4.4. safety; 4.5. appropriate linkages between neighborhoods and employment; and 4.6. the potential for reducing travel times and vehicle miles traveled.	✓	Transportation Planning has approved the proposal.
30	Mobility: Goal 3	5. Evaluate developments for their impact on the transportation network (including the street, pedestrian, transit, freight movement and bike facilities and services) and air quality.	✓	Transportation Planning has approved the proposal.
31	Mobility: Goal 3	6. Ensure that those who propose new developments bear or share in rough proportionality the costs of transportation facilities and services made necessary by development.	✓	Transportation Planning has approved the proposal.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
32	Mobility: Goal 3	9. When existing transportation facilities and services are inadequate and public funds are not available to rectify the situation, the developer may be asked to make improvements, roughly proportional to the projected impact of the proposed development, to eliminate present inadequacies if such improvements would be the only means by which the development would be considered appropriate at the proposed location.	✓	Transportation Planning has approved the proposal.
33	Mobility: Goal 3	10. Ensure that necessary improvements occur in accordance with long-range transportation plans and level of mobility criteria for all modes of travel.	✓	Transportation Planning has approved the proposal.
34	Community Facilities: Goal 2	1. Locate development in areas served by existing utilities or capable of being served by public or private utility extensions.	✓	The relevant utilities have approved the proposal.
35	Community Facilities: Goal 2	2. Ensure that all development has an adequate supply of potable water and water for fire-fighting purposes. Locate only very low-density land uses on sites that use on-lot sewage disposal systems or on a private supply of potable water.	✓	Louisville Water Company has approved the proposal.
36	Community Facilities: Goal 2	3. Ensure that all development has adequate means of sewage treatment and disposal to protect public health and to protect water quality in lakes and streams as determined by the Metropolitan Sewer District (MSD).	✓	MSD has approved the proposal.
37	Economic Development: Goal 1	2. Encourage industries, to the extent possible, to locate in industrial subdivisions or adjacent to an existing industry to take advantage of special infrastructure needs.	NA	The proposal is not for industrial zoning.
38	Economic Development: Goal 1	3. Locate commercial uses generating high volumes of traffic on a major arterial street, at the intersection of two minor arterials, or at a location with adequate access to a major arterial and at locations where nuisances and activities of the proposed use will not adversely affect adjacent areas.	✓	The site is located on River Road, a minor arterial at this location. The site has adequate access to a major arterial at US Hwy 42.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
39	Economic Development: Goal 1	4. Utilize industrial sites near the airport and the Ohio River to support the growth and development of uses whose infrastructure and production needs require such a location or for land uses that support airport-oriented or river-oriented industrial uses.	NA	The proposal is not for industrial zoning. The site is not located near the airport or the Ohio River.
40	Economic Development: Goal 1	5. Require industrial developments to locate with the appropriate transportation connectivity, near an arterial street or within existing industrial subdivisions.	NA	The proposal is not for industrial zoning.
41	Livability: Goal 1	17. Determine site susceptibility to erosion; identify the presence of on-site carbonate conditions and features that are vulnerable to site disturbance; identify the extent of existing groundwater use and the impacts of the project on groundwater resources, flow patterns, and existing and proposed surface drainage. Then mitigate potential hazards to such systems resulting from the project.	NA	No karst topography is evident on the site.
42	Livability: Goal 1	21. Mitigate negative development impacts to the integrity of the regulatory floodplain by encouraging development patterns that minimize disturbance and consider the increased risk of more frequent flooding events.	NA	The site is not located in the floodplain.
43	Livability: Goal 1	24. Ensure, to the extent feasible, that critical facilities and those that store or use hazardous wastes are located outside the regulatory floodplain. Where essential community facilities must be located within a floodplain (e.g., pumping stations), ensure that these facilities are designed, located and operated in a manner that minimizes loss of services during flood events as well as limits, to the extent possible, floodplain disturbance.	NA	The site is not located in the floodplain.
44	Housing: Goal 1	2. Promote housing options and environments that support aging in place. Encourage housing for older adults and people with disabilities to be located close to shopping and transit routes and, when possible, medical and other supportive facilities.	✓	The proposed zoning district would support aging in place by permitting commercial uses adjacent to an existing commercial activity center.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
45	Housing: Goal 2	1. Encourage inter-generational, mixed-income and mixed-use development that is connected to the neighborhood and surrounding area.	✓	The proposed zoning district would permit inter-generational mixed-income and mixed-use development.
46	Housing: Goal 2	2. Locate housing within proximity to multi-modal transportation corridors providing safe and convenient access to employment opportunities, as well as within proximity to amenities providing neighborhood goods and services. Higher density, accessible residential uses should be located along transit corridors and in or near activity centers.	✓	The proposal would permit housing to be in proximity to an activity center providing neighborhood goods and services.
47	Housing: Goal 3	2. As neighborhoods evolve, discourage displacement of existing residents from their community.	✓	No existing residents will be displaced by the proposal.
48	Housing: Goal 3	3. Encourage the use of innovative methods such as clustering, mixed-use developments, co-housing, and accessory apartments to increase the production of fair and affordable housing.	✓	The proposed zoning district would permit innovative methods of housing.

4. **Proposed Binding Elements**

1. The development shall be in accordance with the approved district development plan, all applicable sections of the Land Development Code (LDC) and agreed upon binding elements unless amended pursuant to the Land Development Code. Any changes/additions/alterations of any binding element(s) shall be submitted to the Planning Commission or the Planning Commission's designee for review and approval; any changes/additions/alterations not so referred shall not be valid.
2. No outdoor advertising signs, small freestanding signs, pennants, balloons, or banners shall be permitted on the site.
3. Construction fencing shall be erected when off-site trees or tree canopy exists within 3' of a common property line. Fencing shall be in place prior to any grading or construction to protect the existing root systems from compaction. The fencing shall enclose the entire area beneath the tree canopy and shall remain in place until all construction is completed. No parking, material storage or construction activities are permitted within the protected area.
4. Before any permit (including but not limited to building, parking lot, change of use, site disturbance, alteration permit or demolition permit) is requested:
 - a. The development plan must receive full construction approval from Construction Review, Louisville Metro Public Works and the Metropolitan Sewer District.

- b. The property owner/developer must obtain approval of a detailed plan for screening (buffering/landscaping) as described in Chapter 10 prior to requesting a certificate of occupancy. Such plan shall be implemented prior to occupancy of the site and shall be maintained thereafter.
 - c. A Tree Preservation Plan in accordance with Chapter 10 of the LDC shall be reviewed and approved prior to obtaining approval for site disturbance.
- 5. A certificate of occupancy must be received from the appropriate code enforcement department prior to occupancy of the structure or land for the proposed use. All binding elements requiring action and approval must be implemented prior to requesting issuance of the certificate of occupancy, unless specifically waived by the Planning Commission.
- 6. There shall be no outdoor music (live, piped, radio or amplified) or outdoor entertainment or outdoor PA system audible beyond the property line.
- 7. The applicant, developer, or property owner shall provide copies of these binding elements to tenants, purchasers, contractors, subcontractors and other parties engaged in development of this site and shall advise them of the content of these binding elements. These binding elements shall run with the land and the owner of the property and occupant of the property shall at all times be responsible for compliance with these binding elements. At all times during development of the site, the applicant and developer, their heirs, successors; and assignees, contractors, subcontractors, and other parties engaged in development of the site, shall be responsible for compliance with these binding elements.
