Stacy,

Thanks for the revised cost estimate, I will have Carmen to do the CIF paperwork for this one. I am looking to use the same method for Main Street as well, please provide me with an estimate.

Thanks,

CW Purvis

Councilwoman Purvis and Ms. Washington,

I'm not sure if the CIF paperwork has been completed for the 40<sup>th</sup> Street Rumble Strip Pilot project yet. I don't believe I have received any paperwork thus far. If it has not, I have a new estimate for the cost of the thermoplastic rumble strip markings. I had requested our contractor provide an updated price and it is better.

**Regarding item 2 below (40th Street Rumble Strip pilot) estimated cost \$12,720. The new estimated cost is \$9,000.**

Thank you,  
Stacy

Jennifer,

Yes ma'am, let's move forward.

Carmen,

Please prepare the CIF paperwork for the speed humps on 40th.

Thanks

Councilwoman Purvis

**Subject:** District 5: Public Works Focus Area Topics

CW Purvis,

Please find updates below and let us know what questions you have.

**1. Complete speed hump status update (email update attached)**

Please see attached for comprehensive summary. Please advise if there are specific locations we need to prioritize.

**2. 40th Street Rumble Strip pilot**

We have reviewed the area of 40<sup>th</sup> Street between Broadway and River Park.

We recommend 6 locations to apply rumble strips on 40th St (3 per block and skipping alleys) at approximately these addresses: 675/676 40th St, 661/662 40th St, 647/648 40th St, 610/611 40th St, 620/621 40th St, 632/633 40th St

Strips would be created with layers of thermoplastic and only span the center section of roadway to avoid conflicts with parking spaces.

We have requested and are waiting to receive pricing from the contractor.

If you would like to proceed with this project once you have reviewed the costs, the next step we recommend is to meet with neighbors to discuss.

**3. 33rd Streetscape/Traffic Calming (general concept sketch attached)**

Next step would be to schedule a meeting with adjoining businesses and library. Would you like to initiate these conversations? Public Works can reach out to these owners and schedule times to meet as well if that is helpful.

Need to confirm use of rocks at Lanin park are approved for reuse with Metro Parks  
Estimated project price range \$50,000-\$100,000, dependent on more detailed design.

**4. Northwestern Parkway Conversion**

The latest layout plans for conversion of Northwestern and Bank as developed by metro will be sent by separate email due to size. This section of Northwestern parkway is owned by the state.

KYTC was recently awarded a grant for their Northwest Community Connectivity Study and these streets are within the study boundary. The next step would be to schedule a time with them to discuss if 2 way conversion could be considered as part of this effort. I will cc you on a request to KYTC project Manager, Larry Chaney, to request an update.
