Planning & Zoning,

The Friends Meeting House owns two properties that were combined together by deed in February 2012. They would like to recreate the original property line between the two properties. Because Lot 231 in Wellington Extension of Strathmoor Subdivision recorded in Plat Book 6, Pages 34 & 35 does not conform to the current zoning requirements for Lot size, they are asking for a portion of Bon Air Avenue be closed to bring the proposed property into compliance. This does not affect the current use of the sidewalk along Bon Air Avenue.
