SECTION 4 - PROGRAM/PROJECT NARRATIVE

A: Describe the program/project start and end dates, a description of the program/project and applicable data with regards to specific client population the program will address (attach related flyers, planning minutes, designs, event permits, proposals for services/goods, etc.):

Light The Night is The Leukemia & Lymphoma Society's Event that funds lifesaving research and support for people battling cancer. Friends, Families, Co-worker and the Public are able to come enjoy a inspirational, memorable, evening walk.

The Louisville Light The Night Walk takes place at Louisville Slugger Field on Saturday September 27th. The event draws 7,000+ in attendance and there is no charge to attend.

The event begins at 5pm with live music on the field and booths setup on the concourse. This year we have added a health fair that will be operated by Galen College of Nursing.

Around 6:00pm we have a non-denominational remembrance ceremony in the Great Hall. This ceremony is for any individual that has lost someone to any form of cancer.

At 6:45pm the main program begins. We will have several speakers and 2-3 videos that will play on the Pepsi Vision.

7:20pm The walk will begin & Lighting of the Lanterns! Individuals will line up on the concourse and exit the Witherspoon exit of the park. They will cross the street and enter Waterfront Park make a lap around the Great Lawn and then start heading back toward the stadium.

8pm The EVENT goes LIVE! WLKY begins broadcasting the event live on there METV station with a 30 minute television special. Also at 8pm the individuals re-enter the stadium through the center field wall with there Lighted Lanterns.

8:45pm Fireworks! Zambelli International does a large firework demonstration to cap the night.

This is a great safe family evening!

B: Describe specifically how the funding will be spent including identification of funding to sub grantee(s):

The funds are used to offset Leukemia & Lymphoma Society operating expenses & Light The Night Event expenses. These expenses could included office rental, temporary staffing, phone expenses, mailing expenses, fundraising incentives, music and much more. Your funds allow us to put on a great free event for the community and at the same take the money that is raised and put it towards the mission of saving lives in this community. As I said earlier the event is open to the public and free of charge, but because of that there are some charges that we need to cover.

The more expense we can offset, the more funds raised that evening will go directly to blood cancer research that will directly help save lives at the James Graham Brown, Norton Cancer Institute & CBC at Baptist Health. The doctors at these institutions will tell you how valuable the research LLS does and how many lives we have saved in our community. Also we will be able to personally touch and effect more family in this community through our countless programs and financial aids.

Most items are paid with an American Express Card on a monthly basis and are subdivided by category

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. The IRS has created a page on irs.gov for information about Form W-9, at www.irs.gov/w9. Information about any future developments affecting Form W-9 (such as legislation enacted after we release it) will be posted on that page.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, payments made to you in settlement of payment card and third party network transactions, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to

1. Certify that the TIN you are giving is correct (for you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the

withholding tax on foreign partners' share of effectively connected income, and

4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct.

Note. If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

Dear Taxpayer:

This is in response to your Feb. 28, 2013, request for information regarding your tax-exempt status.

Our records indicate that you were recognized as exempt under section 501(c)(3) of the Internal Revenue Code in a determination letter issued in January 2001.

Our records also indicate that you are not a private foundation within the meaning of section 509(a) of the Code because you are described in section(s) 509(a)(1) and 170(b)(1)(A)(vi).

Donors may deduct contributions to you as provided in section 170 of the Code. Bequests, legacies, devises, transfers, or gifts to you or for your use are deductible for Federal estate and gift tax purposes if they meet the applicable provisions of sections 2055, 2106, and 2522 of the Code.

Please refer to our website www.irs.gov/eo for information regarding filing requirements. Specifically, section 6033(j) of the Code provides that failure to file an annual information return for three consecutive years results in revocation of tax-exempt status as of the filing due date of the third return for organizations required to file. We will publish a list of organizations whose tax-exempt status was revoked under section 6033(j) of the Code on our website beginning in early 2011.

Part I, Line 2 - Procedures for Monitoring the Use of Grant Funds

FIDUCIARY RESPONSIBILITY AND TRANSPARENCY TO OUR DONORS IS A HIGH PRIORITY. THE LEUKEMIA & LYMPHOMA SOCIETY (LLS) PLACES CONSIDERABLE EMPHASIS ON THE OVERSIGHT OF GRANT SPENDING. TO ACCOMPLISH THIS WE REQUIRE THE SUBMISSION OF ANNUAL FINANCIAL REPORTS FOR EACH OF OUR ACTIVE GRANTS. THE REPORT MUST BE SIGNED BY THE FINANCIAL OFFICER AND/OR THE DESIGNATED OFFICIAL OF THE INSTITUTION HOSTING THE AWARD. AT THE END OF THE GRANT, WE REQUIRE A FINAL FINANCIAL REPORT THAT PROVIDES AN OVERVIEW OF ALL SPENDING THROUGH THE DURATION OF THE AWARD. WE REQUIRE SPECIFIC ACCOUNTING OF SPENDING ON PERSONNEL, CONSULTANTS, EQUIPMENT PURCHASES, SUPPLIES, TRAVEL, PATIENT CARE COSTS, ANIMAL CARE COSTS, AND ANY OTHER EXPENSE A GRANTEE MAY INCUR. WE HAVE SPECIFIC INSTRUCTIONS AND DOLLAR AMOUNT LIMITATIONS SET FOR MANY OF THESE CATEGORIES DEPENDING ON THE AWARD TYPE. FINANCIAL REPORTS ARE REVIEWED FOR NUMERICAL ACCURACY, ADHERENCE TO OUR GUIDELINES, AND FOR THE VERIFICATION OF APPROVAL FROM THE INSTITUTION'S FINANCIAL OFFICER. IF THE GRANTEE DOES NOT SUBMIT AN ANNUAL FINANCIAL REPORT BY THE DUE DATE OUTLINED IN THEIR CONTRACT, FUNDING IS SUSPENDED UNTIL LLS RECEIVES AND APPROVES THE DELINQUENT REPORT.

continue to support research through our innovative and integrated funding programs, until every patient has a safe and effective therapy. In fiscal year 2013, LLS supported research in the U.S., Canada and 7 other countries with a total research disbursement of approximately \$72 million. Research funding was distributed across all blood cancers.

OUR CRITICAL ROLE

LLS programs accelerate relevant research outcomes by:

- Building a focused research work-force: Assuring the next round of breakthroughs requires that young investigators be encouraged to work in blood cancer research fields.
- Turning discoveries into new therapies: Fundamental new findings can be translated into safe and effective treatments that can ultimately prolong and enhance patient lives.
- Supporting synergy: Large grants and contracts enable scientists in academia and the private-sector to collaborate, combining resources and expertise to produce more and faster advances.
- Filling a void: Research projects that are high-risk and/or address rare cancers are less likely to be funded by government agencies or for-profit companies, but may provide important advances.
- Speeding new treatments to patients: Partnering with biotechnology and pharmaceutical companies can advance promising therapies through clinical

testing, faster.

PAST ADVANCES MADE WITH LLS RESEARCH FUNDING

Generous donors have helped LLS support research that has already benefited blood cancer patients and many others. Advances include:

- Multi-drug therapies that are more effective than treatments with single anti-cancer agents,
- Bone marrow / stem cell transplantation and supportive care treatments for patients who relapse despite the best available therapy,
- Tests that distinguish specific characteristics of particular blood cancers for accurate diagnosis of cancer subtypes, and for "risk stratification" to select an optimal therapy.

TARGETED THERAPY RESEARCH

Discovering the molecular abnormalities that cause particular types of blood cancer has been useful in diagnosis and risk stratification, and in new "targeted drug" development. LLS-funded investigators have helped advance molecularly targeted treatments that can selectively kill blood cancer cells versus normal cells. Many of these new treatments benefit not only blood cancer patients, but also patients with other diseases. For example:

- Gleevec® is FDA-approved for patients of all ages with chronic myeloid leukemia (CML), and is also approved for patients with one form of acute

lymphoid leukemia (ALL), myelodysplastic syndromes (MDS), myeloproliferative disorders and rare forms of stomach and skin cancers. Related drugs, Sprycel® and Tasisign®, are approved for patients who do not benefit from Gleevec. One or more of these drugs are also showing promise for patients with various lymphomas, acute myeloid leukemia (AML), chronic lymphocytic leukemia (CLL), and other cancers, including brain, breast, head-and-neck, lung, pancreatic, and prostate cancers, and patients with other diseases including Alzheimer's, asthma and pulmonary hypertension.

- Rituxan® was the first FDA-approved, anti-cancer antibody drug, developed for patients with forms of B-cell non-Hodgkin lymphoma (NHL). It is now also approved for CLL patients and as a "maintenance" therapy for follicular lymphoma patients, and showing promise for patients with ALL and after stem cell transplantation. In addition, it is approved for treating patients with severe rheumatoid arthritis and two other types of autoimmune diseases. A related antibody drug, Arzerra®, is approved for CLL patients and showing wider promise.

- Velcade®, Thalidomid® and Revlimid® are FDA-approved for patients with myeloma and are also helping some patients with Hodgkin lymphoma and NHL. Krypolis® was recently approved for myeloma patients for whom at least two prior therapies were insufficient. One or more of these drugs are now being tested for patients with T-cell and B-cell forms of lymphoma, acute leukemias, as well as AIDS-related Kaposi sarcoma and brain, breast, colorectal, head-and-neck, kidney, liver, lung, ovarian and prostate cancers, and Alzheimer's disease.

- Istodax®, Zolinza®, Dacogen® and Vidaza® target small chemical, "epigenetic" changes. The first two drugs are approved for patients with peripheral T-cell lymphomas; the latter drugs are approved for MDS

patients. One or more of these drugs are being tested for patients with ALL, AML, CML, CLL, myeloma and forms of NHL, after stem cell transplantation, and for patients with breast, brain, kidney, colorectal, head-and-neck, lung, stomach, prostate and ovarian cancers, melanoma as well as sickle cell disease and persistent HIV infections.

OTHER ACTIVE RESEARCH DIRECTIONS

LLS-funded researchers are also exploring other areas of research that hold promise for patients:

- Novel Stem Cell Transplantation Procedures: These include so-called "mini" transplants that use less toxic pre-transplant treatments and engineered donor cells that help reduce post-transplant complications, making these potentially curative treatments available to more patients.
- Immunotherapies: Including antibodies, vaccines and engineered immune cells, these targeted therapies help a patient's immune system fight infections and kill residual cancer cells, prolonging remissions, and perhaps one day replacing toxic chemotherapies.
- Diagnostics: New technologies make it possible to characterize the abnormalities in individual cancer cases in molecular detail. This information can be used to help choose the best possible treatment for each patient, especially as more targeted therapies become available.
- Quality of Life Research: These studies increase our understanding of how specific treatments can cause debilitating side-effects, including late-effects, and which patients are at risk for developing these complications, so that they can be better managed or even prevented.

DRIVING RESEARCH TO ADDRESS UNMET MEDICAL NEEDS

LLS continues to solicit and support research focused on improving blood cancer patients' quality of life after today's curative therapies. Also in 2013, for the second year, LLS actively recruited research proposals in three other underdeveloped research areas in which progress is likely to improve outcomes for patients with particularly urgent needs. New research is focused on:

- the malignant stem cell in AML and MDS
- non-cutaneous T-cell leukemias and lymphomas
- high risk myeloma cases

THE THERAPY ACCELERATION PROGRAM

This strategic initiative was launched in 2007 to move new treatments and diagnostics through preclinical development and clinical trials, faster. Using milestone-driven contracts and working in concert with academic investigators, medical centers and companies, LLS is further bridging the gap between discovery and human applications to increase the likelihood that novel, possibly breakthrough, treatments will be available to patients as soon as possible. The program includes:

- The Academic Concierge Division identifies especially promising LLS-funded grant projects and provides additional support to advance selected projects to the product stage.

- The Biotechnology Accelerator Division partners LLS with companies to combine scientific and financial resources and accelerate the development of potential blood cancer therapies that otherwise might not be prioritized by the company.

- The Clinical Trials Division brings clinical trials to blood cancer patients in their communities, including under-represented populations, and with the ultimate goal of increasing patient enrollment in blood cancer trials.
