## Experience

LANDSCAPE ARCHITECT, GRESHAM SMITH AND PARTNERS;  
LOUISVILLE, KY 2017 - PRESENT

As landscape architect at Gresham Smith And Partners the past year has been spent focusing on design development and construction documentation of a \$26 million multimodal transit project in the City of Lexington, KY and design of phase 2 of a 21<sup>st</sup> Century Parks project. Projects worked on have been diverse in size and scope ranging from small residential and business courtyard spaces to a 2 mile long multimodal project.

Responsibilities include:

- Client relations
- Site design and master planning
- Design development and construction documentation
- Budget engineering
- Construction administration

LANDSCAPE ARCHITECT/OWNER, PATRICK HENRY LANDSCAPE ARCHITECTS;  
LOUISVILLE, KY 2012 - PRESENT

As principal & designer at PHLA the goal is to create extraordinary landscapes and gardens. Projects range from high-end residential design and estate planning to parks and public spaces, including design of phase 1 of a 21<sup>st</sup> Century Parks project and design and construction of documentation of a small urban park currently under construction in the Butchertown neighborhood.

Responsibilities include:

- Client relations and project management
- Management of staff
- Project proposal and contract preparation
- Site design and master planning
- Oversight and management of all graphic productions of plans, sections, elevations, perspective drawings, 3-D modeling and project portfolios
- Design development and construction documentation
- Budget engineering
- Construction administration
- Construction cost estimation and scheduling
- Construction implementation

LANDSCAPE DESIGNER/OWNER, PATRICK HENRY DESIGN ASSOCIATES LLC.;  
LOUISVILLE, KY 2009 - 2012

see above

LANDSCAPE DESIGNER, CUMMIN ASSOCIATES LLC.;  
LOUISVILLE, KY & STONINGTON, CT 2007 - 2009

The firm specializes in high-end residential, estate design and master planning throughout the U.S. and Canada. Projects were diverse in style and scope, ranging from roof-top gardens in Manhattan, to creating gardens for period and contemporary homes, to restoration of historic gardens.

Responsibilities included:

- Contributed to site design and the master planning process
- Created plans, sections, elevations and perspective drawings
- Design development and construction documents for hard elements: walls, terraces, paths, drives, pergolas, gates, pools, fountains
- Developed master grading and materials plans, planting plans and lighting schematics, etc.
- Prepared project proposals
- Maintained communications and collaborated with other project professionals, including architects, engineers, contractors, fabricators, etc.

## Education & Academic Awards

University of Massachusetts, Amherst — B.S. Landscape Architecture, 2007 — Cum Laude

Domestic Exchange — University of Kentucky, Spring 2007

Independent Study/Workshop — University of Massachusetts — Amherst, 2006

“Citadel Island Hamburg — Harburg, Visions For The Inner Harbor Between The Elbe and Downtown Harburg: A Project To Envision The Leap Across The Elbe For The City and State of Hamburg” — an interdisciplinary urban design workshop made up of eight international landscape and regional planning graduate and undergraduate students challenged with exploring connections from the Central Business District of Harburg, Germany, from its harbor to the Elbe River, in order to foster economic, research and cultural activities as the area underwent urban renewal. Students presented visionary design proposals to the city of Hamburg, Germany and the work was displayed in an exhibition at the Channel Harburg.
