

Planning Commission
Staff Report
January 4, 2018

Case No:	17ZONE1057
Request:	R-4 to C-N
Project Name:	Pharmacy/Retail Store
Location:	10515 Taylorsville Road
Owner:	Kevin Carrico, James P. Landherr & Hanken Corp, Inc
Applicant:	Ken Lurie
Representative:	Bardenwerper, Talbott & Roberts, PLLC
Jurisdiction:	Jeffersontown
Council District:	20 – Stuart Benson
Case Manager:	Laura Mattingly, AICP, Planner II

REQUEST

- **Change in Zoning** from R-4, Single-Family Residential to C-N, Commercial-Neighborhood on 1.97 acres
- **Waiver of Section 10.2.4** to allow vehicle use area to encroach into the required 25' Landscape Buffer Area along northern property line
- **Waiver of Section 5.9.2.A.1.b.i** to not provide a pedestrian connection from Candlewood Way.
- **Variance from Section 5.3.2, Table 5.3.2** to allow vehicle use area to encroach into the required 30' non-residential to residential setback along the northern property line
- **Detailed District Development Plan** with Binding Elements

CASE SUMMARY/BACKGROUND

The applicant is proposing a 14,550 square foot pharmacy and retail store in the city of Jeffersontown, at the corner of Taylorsville Road and Ruckriegel Parkway. The site currently consists of six parcels and single family homes that are proposed to be demolished. The site plan proposes access from both Taylorsville Road and Ruckriegel Parkway and contains 57 parking spaces.

Previous Cases:

B-56-86: A variance from the Zoning District Regulations to permit an existing detached garage to encroach into the required side yard.

STAFF FINDINGS

Staff finds that the proposed rezoning change generally complies with the applicable guidelines and policies Cornerstone 2020. The proposal is located at the intersection of two arterial roadways and is near the Historic Gaslight District of Jeffersontown, which has a mix of residential and commercial uses. The proposal will be installing sidewalks along the three adjacent roadways which will increase pedestrian connectivity to neighboring residences and along the Taylorsville Road corridor. The use is neighborhood serving, near transit access, and will provide pedestrian connections from Taylorsville Road and Ruckriegel Pkwy to the establishment. While the proposal is not preserving existing trees, it is providing all plantings and tree canopy requirements and is providing adequate transitions to lower intensity uses.

TECHNICAL REVIEW

- Transportation and MSD have given preliminary approvals. .

INTERESTED PARTY COMMENTS

Danielle Chastine phoned with concerns about liquor sales at the pharmacy. Rebecca Simmons emailed with inquiries about project details. Kimberly Draewell phoned and emailed with a list of concerns including drainage, traffic, lighting, hours of operation and the deed of restrictions for this property.

STANDARD OF REVIEW FOR REZONING

Criteria for granting the proposed form district change/rezoning: *KRS Chapter 100.213*

1. The proposed form district/rezoning change complies with the applicable guidelines and policies Cornerstone 2020; OR
2. The existing form district/zoning classification is inappropriate and the proposed classification is appropriate; OR
3. There have been major changes of an economic, physical, or social nature within the area involved which were not anticipated in Cornerstone 2020 which have substantially altered the basic character of the area.

STAFF ANALYSIS FOR REZONING

Following is staff's analysis of the proposed rezoning against the Guidelines and Policies of Cornerstone 2020.

The site is located in the Suburban Marketplace Corridor Form District

Suburban Marketplace Corridors are generally located along major roadways with well-defined beginning and ending points and established depths along the length of the corridor. The pattern of development is distinguished by a mixture of medium to high intensity uses. Accommodations for transit users, bicyclists and pedestrians are encouraged in an effort to attract a variety of users as well as to minimize automobile dependency and traffic congestion. Connectivity to nearby uses should be encouraged. Developers should be encouraged to design new commercial development in compact groups of buildings, which use the same curb cut, share parking, have a common freestanding sign identifying the uses and have a common buffering or streetscape plan with respect to any abutting uses of lower density or intensity. This form may include medium to high-density residential uses that are designed to be compatible with both the non-residential uses along the corridor and the lower density residential uses in adjacent form districts. Medium density residential uses may serve as a transition area from lower to higher density residential uses and should be encouraged in this form.

Proposed new commercial uses are encouraged, to locate within the boundaries of existing corridors. Reuse of locations within existing corridors is preferred over expansion of a corridor. Proposals to expand defined corridors represent significant policy decisions. When considering proposals that result in an extension of suburban marketplace corridors, particular emphasis should be placed on: (a) use or reuse of land within existing corridors; (b) potential for disruption of established residential neighborhoods; and (c) compliance with the site and community design standards of the Land Development Code.

The proposal for a new commercial use is located within an existing corridor, near other medium intensity uses. Pedestrian connections and access to transit has been improved with this proposal, as new sidewalks are being added where they did not exist. Connectivity to similar uses, as well as adjacent neighborhoods is provided. Adequate screening and buffering is also proposed in order to aide in the transition from adjacent residential uses.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR WAIVER of Section 10.2.4 to allow vehicle use area to encroach into the required 25' Landscape Buffer Area along northern property line

- (a) The waiver will not adversely affect adjacent property owners; and

STAFF: The waiver will not adversely affect adjacent property owners as this is only a partial encroachment and plantings and screening will still be provided.

- (b) The waiver will not violate specific guidelines of Cornerstone 2020; and

STAFF: The waiver will not violate guideline 3, Compatibility, of Cornerstone 2020, which calls for the protection of roadway corridors and public areas from visual intrusions, for mitigation of parking areas so as not to negatively impact nearby residents and pedestrians, and for parking areas adjacent to streets to be screened and buffered. The waiver will not violate guideline 13, Landscape Character, which calls for the protection of roadways through standards for buffers, landscape treatment, lighting and signs. These guidelines are not violated as the applicant will be providing all required plantings and screening that serve the intent of the regulation.

- (c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant; and

STAFF: The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant as only a portion of the vehicle use area encroaches into the required LBA and plantings will still be provided.

- (d) Either:

(i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect); OR

(ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land and would create an unnecessary hardship on the applicant as providing the full 25' LBA would require the drive-thru to be removed from the plan.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR WAIVER of Section 5.9.2.A.1.b.i to not provide a pedestrian connection from Candlewood Way.

- (a) The waiver will not adversely affect adjacent property owners; and

STAFF: The waiver will not adversely affect adjacent property owners as pedestrian connections have been provided along two other frontages and it has been expressed by neighbors that a pedestrian connection is not wanted along the Candlewood Way frontage.

- (b) The waiver will not violate specific guidelines of Cornerstone 2020.

STAFF: Guideline 2, Policy 16 encourages activity centers to be easily accessible by bicycle, car, transit, and for pedestrians and people with disabilities. Large activity centers should be considered for designation as transit nodes. Guideline 7, Policy 1 states that developments should be evaluated for their impact on the street and roadway system and to ensure that those who propose new developments bear or reasonably share in the costs of the public facilities and services made necessary by development. Guideline 7, Policy 3 provides that development should be evaluated for their ability to promote mass transit and pedestrian use. Encourage higher density mixed use developments that reduce the need for multiple automobile trips as a means of achieving air quality standards and providing transportation choices. Guideline 7, Policy 4 encourages provisions for

transportation services and facilities to promote and accommodate growth and change in activity centers rather than in a linear pattern. Provide walking and bicycling opportunities to enable activity centers to minimize single-occupant vehicle travel. Encourage a mix of complementary neighborhood serving businesses and services in neighborhood and village centers to encourage short trips easily made by walking or bicycling. Guideline 9, Policy 1 states that new development should provide for the movement of pedestrians, bicyclists and transit users with sidewalks along the streets of all developments where appropriate. These guidelines are not violated, as pedestrian connections have been made along the two other street frontages that are closer to the nearest transit stops, providing for adequate movement of pedestrians and access to mass transit.

- (c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant

STAFF: The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant as pedestrian access has been adequately provided along both other frontages.

- (d) Either:
(i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect); OR
(ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant as providing this pedestrian access is not wanted by neighbors and adequate pedestrian access is provided along the other two frontages.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR VARIANCE from Section 5.3.2, Table 5.3.2 to allow vehicle use area to encroach into the required 30' non-residential to residential setback along the northern property line

- (a) The requested variance will not adversely affect the public health, safety or welfare.

STAFF: The variance will not adversely affect the public health, safety or welfare as the vehicle use area only encroaches on a portion of the required setback in a location that is farthest from the adjacent single family home.

- (b) The requested variance will not alter the essential character of the general vicinity.

STAFF: The requested variance will not alter the essential character of the general vicinity as the encroachment is on the rear of the site where it is not easily viewed by the public.

- (c) The requested variance will not cause a hazard or nuisance to the public.

STAFF: The requested variance will not cause a hazard or nuisance to the public as the encroachment is along a property line shared with a private property and the vehicle use area is approximately 140' from the single family residence to the north at its closest point.

- (d) The requested variance will not allow an unreasonable circumvention of the zoning regulations.

STAFF: The requested variance will not allow an unreasonable circumvention of the zoning regulations as the vehicle use area is encroaching into only a small portion of the required yard.

ADDITIONAL CONSIDERATIONS

1. The requested variance arises from special circumstances which do not generally apply to land in the general vicinity or the same zone.

STAFF: The requested variance does not arise from any special circumstances. The applicant is expanding into the required non-residential to residential yard with the proposed vehicle use area.

2. The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would create an unnecessary hardship on the applicant as the drive-thru, a typical feature of drug stores, could not be provided.

3. The circumstances are the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought.

STAFF: The circumstances are the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought, as the setback regulations have been in place prior to the re-zoning request.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR DDDP

- a. The conservation of natural resources on the property proposed for development, including: trees and other living vegetation, steep slopes, water courses, flood plains, soils, air quality, scenic views, and historic sites;

STAFF: The applicant is removing much of the tree canopy from the site but will be meeting all planting requirements and tree canopy requirements. LOJIC has not identified any other natural features on site.

- b. The provisions for safe and efficient vehicular and pedestrian transportation both within the development and the community;

STAFF: Provisions for safe and efficient vehicular transportation within and around the development and the community has been provided, and Metro Public Works has approved the preliminary development plan. Sidewalks and pedestrian connections are proposed from Taylorsville Road and Ruckriegel Parkway.

- c. The provision of sufficient open space (scenic and recreational) to meet the needs of the proposed development;

STAFF: There is no open space requirement for this proposal.

- d. The provision of adequate drainage facilities on the subject site in order to prevent drainage problems from occurring on the subject site or within the community;

STAFF: The Metropolitan Sewer District has approved the preliminary development plan and will ensure the provision of adequate drainage facilities on the subject site in order to prevent drainage problems from occurring on the subject site or within the community.

- e. The compatibility of the overall site design (location of buildings, parking lots, screening, landscaping) and land use or uses with the existing and projected future development of the area;

STAFF: The overall site design and land uses are compatible with the existing and future development of the area. Appropriate landscape buffering and screening will be provided to provide suitable transitions to adjacent properties and roadways.

- f. Conformance of the development plan with the Comprehensive Plan and Land Development Code. Revised plan certain development plans shall be evaluated for conformance with the non-residential and mixed-use intent of the form districts and comprehensive plan.

STAFF: The development plan generally conforms to applicable guidelines and policies of the Comprehensive Plan and to requirements of the Land Development Code.

REQUIRED ACTIONS

- **RECOMMEND APPROVAL or DENIAL** to the City of Jeffersontown for a Change in Zoning from R-4, Single Family Residential to C-N, Commercial-Neighborhood on 1.97 acres
- **RECOMMEND APPROVAL or DENIAL** to the City of Jeffersontown for the Waiver of Section 10.2.4 to allow existing building to encroach into required 25' property perimeter Landscape Buffer Area along the western property line.
- **RECOMMEND APPROVAL or DENIAL** to the City of Jeffersontown for the Waiver of Section 5.9.2.A.1.b.i to not provide a pedestrian connection from Candlewood Way.
- **RECOMMEND APPROVAL or DENIAL** to the City of Jeffersontown for the Variance from Section 5.3.2, Table 5.3.2 to allow vehicle use area to encroach into the required 30' non-residential to residential setback along the northern property line
- **RECOMMEND APPROVAL or DENIAL** to the City of Jeffersontown for the Detailed District Development Plan with proposed binding elements

Suburban Marketplace Corridor: Non-Residential

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
1	Community Form/Land Use Guideline 1: Community Form	B.8: The proposal integrates into the existing pattern of development, which includes a mixture of medium- to high-density uses.	✓	The proposal is consistent with existing development in the area, as there is a mixture of low to medium density commercial and single family homes.
2	Community Form/Land Use Guideline 1: Community Form	B.8: The proposal provides accommodations for transit users, pedestrians and bicyclists and provides connectivity to adjacent developments.	✓	Sidewalks and pedestrian connections are proposed and transit routes nearby. Bike racks are proposed in accordance with the Land Development Code.
3	Community Form/Land Use Guideline 1: Community Form	B.8: The proposal includes a compact group of buildings using the same curb cut, parking and signs, and that have a common buffering or streetscape plan with respect to any abutting lower density or intensity uses.	✓	Shared access is not appropriate or required at this site. Buffering appears to be adequate.
4	Community Form/Land Use Guideline 1: Community Form	B.8: The proposal is of a medium to high density designed to be compatible with both non-residential development in the corridor and adjacent low density residential development in other form districts.	✓	The use is compatible with those along the corridor as it is near other lower-intensity commercial and is a neighborhood serving use.
5	Community Form/Land Use Guideline 1: Community Form	B.8: The proposal is located within the boundaries of the existing form district, and if the proposal is to expand an existing corridor, the justification for doing so addresses the use or reuse of land within the existing corridor, the potential for disruption of established residential neighborhoods, and compliance with the site and community design standards of the Land Development Code.	✓	The proposal is located within the Suburban Marketplace Form District.
6	Community Form/Land Use Guideline 2: Centers	A.1/7: The proposal, which will create a new center, is located in the Suburban Marketplace Corridor Form District, and includes new construction or the reuse of existing buildings to provide commercial, office and/or residential use.	✓	The proposal is near an activity center and is new construction for commercial use.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
7	Community Form/Land Use Guideline 2: Centers	A.3: The proposed retail commercial development is located in an area that has a sufficient population to support it.	✓	The Jeffersontown area is medium density and has sufficient population to support new retail.
8	Community Form/Land Use Guideline 2: Centers	A.4: The proposed development is compact and results in an efficient land use pattern and cost-effective infrastructure investment.	✓	The proposal is utilizing a site that is near an activity center, providing for an efficient land use pattern.
9	Community Form/Land Use Guideline 2: Centers	A.5: The proposed center includes a mix of compatible land uses that will reduce trips, support the use of alternative forms of transportation and encourage vitality and sense of place.	NA	The proposal is not a new center.
10	Community Form/Land Use Guideline 2: Centers	A.6: The proposal incorporates residential and office uses above retail and/or includes other mixed-use, multi-story retail buildings.	NA	The proposal is not a new center and therefore not subject to this element.
11	Community Form/Land Use Guideline 2: Centers	A.12: If the proposal is a large development in a center, it is designed to be compact and multi-purpose, and is oriented around a central feature such as a public square or plaza or landscape element.	NA	The proposal is not a large development in a new center.
12	Community Form/Land Use Guideline 2: Centers	A.13/15: The proposal shares entrance and parking facilities with adjacent uses to reduce curb cuts and surface parking, and locates parking to balance safety, traffic, transit, pedestrian, environmental and aesthetic concerns.	✓	Shared entrances and parking is not appropriate or required in this case.
13	Community Form/Land Use Guideline 2: Centers	A.14: The proposal is designed to share utility hookups and service entrances with adjacent developments, and utility lines are placed underground in common easements.	✓	The proposal will be utilizing existing infrastructure.
14	Community Form/Land Use Guideline 2: Centers	A.16: The proposal is designed to support easy access by bicycle, car and transit and by pedestrians and persons with disabilities.	✓	Sidewalk, pedestrian connections and bike racks are all proposed. The site also has good transit access.
15	Community Form/Land Use Guideline 3: Compatibility	A.2: The proposed building materials increase the new development's compatibility.	+/-	The applicant has not yet submitted elevations.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
16	Community Form/Land Use Guideline 3: Compatibility	A.4/5/6/7: The proposal does not constitute a non-residential expansion into an existing residential area, or demonstrates that despite such an expansion, impacts on existing residences (including traffic, parking, signs, lighting, noise, odor and stormwater) are appropriately mitigated.	✓	The proposal is expanding into a residential area, but adequate buffering and site design is provided that will mitigate negative impacts.
17	Community Form/Land Use Guideline 3: Compatibility	A.5: The proposal mitigates any potential odor or emissions associated with the development.	✓	This proposal is not likely to produce odors and buffering should provide mitigation for emissions from cars.
18	Community Form/Land Use Guideline 3: Compatibility	A.6: The proposal mitigates any adverse impacts of its associated traffic on nearby existing communities.	✓	Safe and adequate access is provided and pedestrian facilities are provided to encourage pedestrians and alleviate vehicular traffic.
19	Community Form/Land Use Guideline 3: Compatibility	A.8: The proposal mitigates adverse impacts of its lighting on nearby properties, and on the night sky.	✓	Lighting will be in accordance with Land Development Code standards.
20	Community Form/Land Use Guideline 3: Compatibility	A.11: If the proposal is a higher density or intensity use, it is located along a transit corridor AND in or near an activity center.	+	This proposal is located at the intersection of a major and minor arterial and is near an activity center.
21	Community Form/Land Use Guideline 3: Compatibility	A.21: The proposal provides appropriate transitions between uses that are substantially different in scale and intensity or density of development such as landscaped buffer yards, vegetative berms, compatible building design and materials, height restrictions, or setback requirements.	✓	While there is a small encroachment into one of the required buffers, landscaping appears to be adequate and plantings/screening will be provided.
22	Community Form/Land Use Guideline 3: Compatibility	A.22: The proposal mitigates the impacts caused when incompatible developments unavoidably occur adjacent to one another by using buffers that are of varying designs such as landscaping, vegetative berms and/or walls, and that address those aspects of the development that have the potential to adversely impact existing area developments.	✓	While there is a small encroachment into one of the required buffers, landscaping appears to be adequate and plantings/screening will be provided.
23	Community Form/Land Use Guideline 3: Compatibility	A.23: Setbacks, lot dimensions and building heights are compatible with those of nearby developments that meet form district standards.	✓	All building heights, setbacks and lot dimensions are compatible with surrounding commercial development.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
24	Community Form/Land Use Guideline 3: Compatibility	A.24: Parking, loading and delivery areas located adjacent to residential areas are designed to minimize adverse impacts of lighting, noise and other potential impacts, and that these areas are located to avoid negatively impacting motorists, residents and pedestrians.	✓	Parking is located along the street frontages and no parking or delivery areas are adjacent to residential.
25	Community Form/Land Use Guideline 3: Compatibility	A.24: The proposal includes screening and buffering of parking and circulation areas adjacent to the street, and uses design features or landscaping to fill gaps created by surface parking lots. Parking areas and garage doors are oriented to the side or back of buildings rather than to the street.	✓	The required Vehicle Use Are Landscape Buffer Areas are provided.
26	Community Form/Land Use Guideline 3: Compatibility	A.25: Parking garages are integrated into their surroundings and provide an active, inviting street-level appearance.	NA	There is not proposed parking garage.
27	Community Form/Land Use Guideline 3: Compatibility	A.28: Signs are compatible with the form district pattern and contribute to the visual quality of their surroundings.	✓	Signage style, dimensions and location will be in accordance with Land Development Code standards.
28	Community Form/Land Use Guideline 4: Open Space	A.2/3/7: The proposal provides open space that helps meet the needs of the community as a component of the development and provides for the continued maintenance of that open space.	NA	There is no open space requirement with this proposal.
29	Community Form/Land Use Guideline 4: Open Space	A.4: Open space design is consistent with the pattern of development in the Neighborhood Form District.	NA	There is no open space requirement with this proposal.
30	Community Form/Land Use Guideline 4: Open Space	A.5: The proposal integrates natural features into the pattern of development.	✓	No tree canopy is proposed to be preserved but the all landscaping and tree canopy requirements will be met.
31	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.1: The proposal respects the natural features of the site through sensitive site design, avoids substantial changes to the topography and minimizes property damage and environmental degradation resulting from disturbance of natural systems.	-	No tree canopy is proposed to be preserved.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
32	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.2/4: The proposal includes the preservation, use or adaptive reuse of buildings, sites, districts and landscapes that are recognized as having historical or architectural value, and, if located within the impact area of these resources, is compatible in height, bulk, scale, architecture and placement.	-	The structures on properties 10515-10603 Taylorsville Road are over 50 years old and therefore potentially eligible for the National Register of Historic Places. Guideline #5 under Community Form/Land Use (Table #3) in the Cornerstone 2020 Comprehensive Plan stresses the protection of historic resources. Historic Preservation staff recommends adaptive re-use of the structure instead of demolition. The structures are over 65 years, if determined eligible for the National Register as per Wrecking Ordinance Section 150.110 there will be a required 30-day hold on the issuance of the permit.
33	Community Form/Land Use Guideline 5: Natural Areas and Scenic and Historic Resources	A.6: Encourage development to avoid wet or highly permeable soils, severe, steep or unstable slopes with the potential for severe erosion.	✓	LOJIC has not identified hydric soils, steep slopes or potential for erosion.
34	Marketplace Guideline 6: Economic Growth and Sustainability	A.3: Encourage redevelopment, reinvestment and rehabilitation in the downtown where it is consistent with the form district pattern.	NA	The proposal is not located downtown.
35	Marketplace Guideline 6: Economic Growth and Sustainability	A.4: Encourage industries to locate in industrial subdivisions or adjacent to existing industry to take advantage of special infrastructure needs.	NA	This proposal is not industrial.
36	Marketplace Guideline 6: Economic Growth and Sustainability	A.6: Locate retail commercial development in activity centers. Locate uses generating large amounts of traffic on a major arterial, at the intersection of two minor arterials or at locations with good access to a major arterial and where the proposed use will not adversely affect adjacent areas.	+	The proposal is located at the intersection of a minor and major arterial, near an activity center.
37	Marketplace Guideline 6: Economic Growth and Sustainability	A.8: Require industrial development with more than 100 employees to locate on or near an arterial street, preferably in close proximity to an expressway interchange. Require industrial development with less than 100 employees to locate on or near an arterial street.	NA	This proposal is not industrial.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
38	Mobility/Transportation Guideline 7: Circulation	A.1/2: The proposal will contribute its proportional share of the cost of roadway improvements and other services and public facilities made necessary by the development through physical improvements to these facilities, contribution of money, or other means.	✓	Sidewalks are provided within the public right of way. No other road improvements are required at this time.
39	Mobility/Transportation Guideline 7: Circulation	A.3/4: The proposal promotes mass transit, bicycle and pedestrian use and provides amenities to support these modes of transportation.	✓	The proposal has met the requirement for providing bike racks and has provided sidewalks and adequate pedestrian connections.
40	Mobility/Transportation Guideline 7: Circulation	A.6: The proposal's transportation facilities are compatible with and support access to surrounding land uses, and contribute to the appropriate development of adjacent lands. The proposal includes at least one continuous roadway through the development, adequate street stubs, and relies on cul-de-sacs only as short side streets or where natural features limit development of "through" roads.	✓	Transportation facilities are adequate.
41	Mobility/Transportation Guideline 7: Circulation	A.9: The proposal includes the dedication of rights-of-way for street, transit corridors, bikeway and walkway facilities within or abutting the development.	NA	Dedication of right of way is not required.
42	Mobility/Transportation Guideline 7: Circulation	A.10: The proposal includes adequate parking spaces to support the use.	✓	Parking calculations are code compliant.
43	Mobility/Transportation Guideline 7: Circulation	A.13/16: The proposal provides for joint and cross access through the development and to connect to adjacent development sites.	✓	Crossover access is not appropriate or required.
44	Mobility/Transportation Guideline 8: Transportation Facility Design	A.8: Adequate stub streets are provided for future roadway connections that support and contribute to appropriate development of adjacent land.	NA	This proposal is located on an existing roadway network and is not creating any new roadways.
45	Mobility/Transportation Guideline 8: Transportation Facility Design	A.9: Avoid access to development through areas of significantly lower intensity or density if such access would create a significant nuisance.	✓	Access is being achieved from the abutting public right of ways.
46	Mobility/Transportation Guideline 8: Transportation Facility Design	A.11: The development provides for an appropriate functional hierarchy of streets and appropriate linkages between activity areas in and adjacent to the development site.	✓	This proposal is located on an existing roadway network that is sufficient.

#	Cornerstone 2020 Plan Element	Plan Element or Portion of Plan Element	Staff Finding	Staff Comments
47	Mobility/Transportation Guideline 9: Bicycle, Pedestrian and Transit	A.1/2: The proposal provides, where appropriate, for the movement of pedestrians, bicyclists and transit users around and through the development, provides bicycle and pedestrian connections to adjacent developments and to transit stops, and is appropriately located for its density and intensity.	✓	The proposal is located near the Gaslight District of Jeffersontown, an activity center. Sidewalks, pedestrian connections and bike racks have been provided, making this a well-connected and located retail use.
48	Livability/Environment Guideline 10: Flooding and Stormwater	The proposal's drainage plans have been approved by MSD, and the proposal mitigates negative impacts to the floodplain and minimizes impervious area. Solid blueline streams are protected through a vegetative buffer, and drainage designs are capable of accommodating upstream runoff assuming a fully-developed watershed. If streambank restoration or preservation is necessary, the proposal uses best management practices.	✓	MSD has provided preliminary approvals.
49	Livability/Environment Guideline 12: Air Quality	The proposal has been reviewed by APCD and found to not have a negative impact on air quality.	✓	APCD has no issues with the proposal.
50	Livability/Environment Guideline 13: Landscape Character	A.3: The proposal includes additions and connections to a system of natural corridors that can provide habitat areas and allow for migration.	-	The removal of trees in this area could have a negative impact on bird and other animal habitat.
51	Community Facilities Guideline 14: Infrastructure	A.2: The proposal is located in an area served by existing utilities or planned for utilities.	✓	This area is developed and has adequate existing infrastructure for the proposal.
52	Community Facilities Guideline 14: Infrastructure	A.3: The proposal has access to an adequate supply of potable water and water for fire-fighting purposes.	✓	There is existing infrastructure in place for potable water and the Jeffersonville Fire Dept has no issues with the proposal.
53	Community Facilities Guideline 14: Infrastructure	A.4: The proposal has adequate means of sewage treatment and disposal to protect public health and to protect water quality in lakes and streams.	✓	MSD has approved the proposal.

4. Proposed Binding Elements

1. The development shall be in accordance with the approved district development plan, all applicable sections of the Land Development Code (LDC) and agreed upon binding elements unless amended pursuant to the Land Development Code. Any changes/additions/alterations of any binding element(s) shall be submitted to the Planning Commission or the Planning Commission's designee for review and approval; any changes/additions/alterations not so referred shall not be valid.
2. No outdoor advertising signs, small freestanding signs, pennants, balloons, or banners shall be permitted on the site.
3. Construction fencing shall be erected when off-site trees or tree canopy exists within 3' of a common property line. Fencing shall be in place prior to any grading or construction to protect the existing root systems from compaction. The fencing shall enclose the entire area beneath the tree canopy and shall remain in place until all construction is completed. No parking, material storage or construction activities are permitted within the protected area.
4. Before any permit (including but not limited to building, parking lot, change of use, site disturbance, alteration permit or demolition permit) is requested:
 - a. The development plan must receive full construction approval from Develop Louisville and the Metropolitan Sewer District.
 - b. Encroachment permits must be obtained from the Kentucky Department of Transportation, Bureau of Highways.
 - c. The property owner/developer must obtain approval of a detailed plan for screening (buffering/landscaping) as described in Chapter 10 prior to requesting a building permit. Such plan shall be implemented prior to occupancy of the site and shall be maintained thereafter.
 - d. A minor plat or legal instrument shall be recorded consolidating the property into one lot. A copy of the recorded instrument shall be submitted to the Division of Planning and Design Services; transmittal of the approved plans to the office responsible for permit issuance will occur only after receipt of said instrument.
 - e. A Tree Preservation Plan in accordance with Chapter 10 of the LDC shall be reviewed and approved prior to obtaining approval for site disturbance.
5. A certificate of occupancy must be received from the appropriate code enforcement department prior to occupancy of the structure or land for the proposed use. All binding elements requiring action and approval must be implemented prior to requesting issuance of the certificate of occupancy, unless specifically waived by the Planning Commission.
6. There shall be no outdoor music (live, piped, radio or amplified) or outdoor entertainment or outdoor PA system audible beyond the property line.
7. The applicant, developer, or property owner shall provide copies of these binding elements to tenants, purchasers, contractors, subcontractors and other parties engaged in development of this site and shall advise them of the content of these binding elements. These binding elements shall run with the land and the owner of the property and occupant of the property shall at all times be responsible for compliance with these binding elements. At all times during development of the site, the applicant and developer, their heirs, successors; and assignees, contractors, subcontractors, and other parties engaged in development of the site, shall be responsible for compliance with these binding elements
8. The materials and design of proposed structures shall be substantially the same as depicted in the rendering as presented at the January 4, 2018 Planning Commission meeting.
