Re: Louisville City FC Owners

To Whom It May Concern:

At the request of various members of the media, Louisville City FC is releasing a complete list its ownership group. We are proud to have such a fine group of owners, as they are pillars in our community. Please note that their investments, in many cases, are held within LLCs or other investment vehicles. We believe the goal is to seek to understand the individuals behind the LLCs, which is why we are releasing individual names and not legal entities.
