**SPONSORED BY: COUNCIL MEMBER BETSY RUHE**

**WHEREAS**, single-use plastics are comprised of fossil fuels, natural gas, and crude oil – harmful chemicals that are tied to hormonal imbalances, infertility, and cancer; and

**WHEREAS**, single-use plastics are non-degradable, only breaking up into smaller micro-plastics which seep into the soil and water sources; and

**WHEREAS**, Metro Government and its various departments routinely host gatherings, either for its employees or by hosting an event for the public; and

**WHEREAS**, this Council wishes to reduce the use of single-use food service products by Metro Government during these events; and
