Agency: Public Health & Wellness Telephone: 502-262-3774

Grant Title: KDPH Office of Health Equity (OHE) Harm Reduction Supplies Project

Funding Source: State Grant Application Deadline: 8/25/2023

Does the funding source require matching funds from Louisville Metro Government?

☐ Yes ☒ No

Metro Cash Match Requirement: n/a

Metro In-Kind Match Requirement: n/a

In Process

How much of the proposed match is captured in the department's current budget?

n/a

Brief Project Description:

Through Harm Reduction Outreach Services programing, xylazine test strips will be distributed to participants and community members who access services. Through the KDPH OHE, LHDs are provided with the opportunity to apply for a one-time award of up to \$8,000 to purchase harm reduction supplies (Xylazine Test Strips)

Length of Grant/Project Period: 6 Months to 1 Year

Does the grant financially obligate Louisville Metro Government after the end date?

☐ Yes ☒ No

Will project activities continue after the grant ends? ☐ Yes ☒ No

Is a letter of support required from the Mayor?* ☐ Yes ☒ No

*Letters of Support must be submitted to the Mayor's Office at least **one week before the application due date**.
Agency Chief must give sign-off on each letter before submittal to the Mayor's Office.

Please submit this form to Julie.Carr@louisvilleky.gov.

Describe the need in your community for additional harm reduction supplies:

There is no ceiling to reach when it comes to Harm Reduction supplies in the current climate. Xylazine is presenting in the drug supply in Jefferson County. Participants and community members need to be able to test their substances and support those in their lives to do so. This will increase people's level of agency, decision-making capacity, health and safety and positively impact their wellness. The additional resource will contribute to the reduction of the number of overdoses as well as toxic drug experiences.

How do you plan to use this funding to meet the harm reduction needs of the community?

I plan to purchase xylazine test strips and through the Harm Reduction Outreach Services team and community partners, to distribute the strips to participants and community members.

How do you plan to reduce disparities in access to harm reduction supplies? (Please specify how you will increase access of supplies to a population(s) such as Black, Indigenous, and People of Color (BIPOC), Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ), or persons living in rural communities. Include any mobile services, community partnerships (e.g., faith-based organizations) or other strategies that will be used to increase outreach and engagement with these populations.):

We will provide test strips to partners who conduct mobile outreach at 8 locations in Jefferson County that are provided in areas typically underserved and populated primarily by people of colour.

We will provide test strips to our partners who engage with members of the LGBTQ2S+ community

We will provide test strips to the diverse population of participants that access services at our LMPHW HQ which include the priority populations noted above.

We will provide test strips at the various educational engagements, including, but not limited to, community health fairs that engage a variety of target populations.

How do you plan to sustain the supplies of your harm reduction program after this one-time funding?

We will continue to apply for grant opportunities and if appropriate, make a case to secure funding through our general funds budget.

Describe your proposed procedures for collecting and reporting monthly activity reports. How will you use this data to evaluate the success of this funding?

We will use our current data collection system to document the number of strips that are being provided to participants and the community. The data will generate the total on a monthly basis, and this will be reported.

The data will indicate how many strips are distributed per location. We will be able to explore differences or similarities and create new approaches as appropriate.

In evaluating the success of this funding, this is how we hope to see it manifest.

> Xylazine test strips in the hands of participants and community – seen through data collection

> Broader and deeper conversations between Staff and participants about Xylazine – pre and post use of the strips

> participant feedback on the use of the strips – recommendations, efficacy etc.

Also, the integration of this resource will undoubtedly positively impact the relationship and trust between participants and staff members. The resource will accompany fact sheets and wound care resources that our team has created about Xylazine and will add to the overall educational conversations/knowledge exchanges. I look forward to hearing qualitative narratives from my team.

In Process

RESOLUTION NO. 094, SERIES 2023

A RESOLUTION AUTHORIZING THE MAYOR TO ACCEPT \$8,000 OF FUNDING FROM THE KENTUCKY DEPARTMENT FOR PUBLIC HEALTH OFFICE OF HEALTH EQUITY THROUGH THE HARM REDUCTION OUTREACH SUPPORT SUPPLIES GRANT PROGRAM TO BE ADMINISTERED BY THE DEPARTMENT OF PUBLIC HEALTH AND WELLNESS.
